WORKSHOP PARTICIPATION AT SVNIT - SURAT

Announcement detail:

The poster is for the Mindbend festival, which is Gujarat's Biggest Techno-Managerial Fest. It is scheduled for 15th March to 17th March. The main event is a Data Science Workshop, which is being held in partnership with Remarkskill. The workshop is taking place on 16 & 17 March, from 10 AM to 5 PM, at the EEE Dept. The poster also includes social media handles for Instagram (@mindbend_nitsurat) and Facebook (mindbend2024), and contact information for Ronit (8980991503) and YUG (7405810904). The registration link is mindbendsvnit.in.

ETHICAL HACKING

Ethical hacking, also known as penetration testing or white-hat hacking, involves authorized professionals testing computer systems, networks, or applications for vulnerabilities. Their goal is to identify and fix security weaknesses before malicious hackers exploit them. Ethical hacking plays a crucial role in enhancing cybersecurity and protecting digital assets.

Impact analysis of event:

The Data Science and ethical hacking workshop at SVNIT was a whirlwind of discovery and innovation. Participants dove headfirst into a captivating journey through the realm of ethical hacking, data analytics and machine learning. Guided by seasoned experts, they navigated through hacking aspects using kali linux, complex algorithms and statistical techniques with ease, unraveling the mysteries of networking security and predictive modeling and data visualization. Hands-on exercises brought theory to life as participants explored hacking arena, real-world datasets, extracting valuable insights and uncovering hidden
