Days Celebration

The Ides of March brings joy and excitement every year for the students of LJIET with a celebratory week, each day having its unique flavor. Each year with new and innovative themes. This event is organized by close to 150 volunteers and organizers from second, third, and fourth-year batches. Every year different themes are set up. Days celebration is like a festival for students. Round about the celebration is for 4-5 days. The dashing LJIets bring out the sharpest, most sleek clothes.

The beauty of the indigenous clothes brings the culture to the campus in its extravagant form; this is the idea behind Traditional Day. It encourages students to bring the vibrant colors of their ethnic attires to the campus. And just when the fun seems to run out, in a truly Gujarati way, everyone breaks into a huge clump of Garba circles.

Group Day is a mandatory part of the days celebration, all the students swear allegiance to their respective cliques by wearing matching custom outfits or group tees. Group activities and games add a shine to this day

The celebratory days conclude with the signature day. Students come to college wearing pristine white t-shirts, which turn into priceless relics of college life when colorful pens stroke around the t-shirts recording their previous year's memories with their college-mates.
