## Sports at LJ

Sport plays an important role in everyone's life. From childhood to adulthood, we all have lived our life by playing sports, which is one of the key reasons why we are much fit today. Sports has not only been a most preferred activity to do in free time , but has also taken a major role in extra curricula in the education department. In Ljiet, sports has been given one of the major quality. We believe that sport plays equal importance as education. Here at Ljiet, we every year organize the sports event. This event is of 2-3 days where various sports like football, basketball, volleyball, etc. are played by several participants. The participants are not only seen from our institute, but different colleges as well. The winner of each sport is honoured with certificates and trophies.
