Cluster

Every year, September 15 is celebrated as Engineers Day as tribute to the Indian engineer and Bharat Ratna Sir Mokshagundam Viswesvaraya (popularly known as Sir MV). To celebrate this occasion an event called 'Cluster' is organized by the L.J. Students Corner (LJSC). Various Tech and Non-Tech activities were put in order. There were different Technical activities such as The Survivor Brain, Midas, Jenga, Switch Debate, Andhadhun and Bid Wars 2.0. The Technical events were more into programming, debate, logical reasoning, general knowledge quiz and bidding. The Non-Tech events were more of fun, laughter and glee. In this there were activities like Cricket Auction Mania, A Minute To Win It, Burn it On, Battle of Sarcasm, Master Chef and Treasure Hunt. After these activities the event was followed by Price Distribution and Blood Donation Camp.

For the first time in 2020, LJJET celebrated virtual Engineer's Day with a virtual event called CLUSTER.2.0. The event was streamed live on YouTube and Instagram for all of 5000 students of LJJET. Around 1000 students participated in virtual games like TREASURE HUNT, FLIMISTAN, NETFQUIZ AND CHILL AND CALL OF DUTY. The live streaming of the event started with the inauguration ceremony, followed by distribution for three different awards.
