

# L J School of Architecture

L. J. K. University

Syllabus for Bachelors of Architecture.

Fourth Year | Semester 7

**Subject Code: 1001701 | Subject: Practical Training | Credit: 28**

**Prerequisite:** The student must have completed semesters 1 to 6 in B. Arch course, with no backlog in Design Studio semester 6 and no backlog in Building Construction & Structure subjects till semester 5.

**Focus:** To help student gain practical training in the chosen field. To integrate the theoretical knowledge into practical situation. To get placement for students after identifying their areas of interest those complement the curriculum / syllabi. To become aware of current issues in the field of Architecture. To give opportunity to students to work independently though under supervision. To raise the confidence level of the student.

## Course Content:

- The student has to identify on his/her own the Office from where he/she wants to avail the practical training and the same has to be approved by the respective institute in advance; it should be noted that the chief Architect of the firm has to be a registered architect with the Council of Architecture or Equivalent (Validity of the registration for the entire tenure of training has to be proved) and having minimum experience of Five years after the registration with the council of Architecture.
- The students has to submit to the institute a letter of acceptance by the office in original on the letterhead of the office along with the copy of the council registration certificate of the chief architect before joining the training
- The student has to undergo the training for a minimum period of 16 weeks with the same firm for which prior approval is taken. if the student/ office wishes to discontinue, permission from the institute needs to be taken for the same.
- The student has to submit a Midterm report and a Final report of the stating the daily schedule of the practical training period to the Institute.
- The student is to be evaluated by institute in the form of viva at the end of the semester, student has to produce a report of the work done along with the copy of the drawings, photographs etc. along with the certificate in original issued by the Principal architect.
- The marks of the practical training will not be considered in calculating the final grade of the degree and the transcript.

**List of Projects/Assignments:** End semester report should contain all the work done by the student in the Architect's firm, should contain detailed drawings, working drawings, field work photographs, etc. The report should also contain a certificate duly signed by the Principal Architect of the firm, stating that the student has completed the prescribed 16 weeks of training. And along with the report and the certificate, the student should also produce a log book of his / her daily schedule during the 16 weeks' time.
