

LJ Institute of Event Management (LJIEM)
Report on Vertical Mentoring Session for Semester 5 Students

Date of Session: 24th July 2025

Venue: L J INSTITUTE OF EVENT MANAGEMENT

No. of students: 30

Faculty: Ms. Drishti Jalan

The LJ Institute of Event Management successfully organized a Vertical Mentoring Session for the Semester 5 students, aimed at bridging the gap between academic learning and real-world professional experiences. The unique aspect of this session was that it was conducted by the passed-out students of LJIEM, who are now successfully working in the event management industry.

The alumni shared their personal journeys, highlighting both their on-campus and off-campus experiences. They spoke about how their time at LJIEM—through academic learning, faculty guidance, hands-on projects, and industry exposure—played a significant role in shaping their careers and developing the skills necessary to thrive in the competitive events industry.

A key takeaway from the session was the emphasis on the importance of internships in reputed event companies over casual freelancing opportunities. The alumni explained that structured internships offer:

- A deeper understanding of the industry workflow
- Exposure to corporate professionalism
- Opportunities for networking with established industry experts
- Hands-on experience in end-to-end event execution

In contrast, freelancing, while offering flexibility, often limits learning to isolated tasks without the broader exposure to event planning and management processes.

The interactive session also allowed current students to ask questions and seek guidance on career paths, skill-building, and portfolio development. The alumni encouraged students to make the most of LJIEM's resources, industry connections, and academic rigor to prepare themselves for the challenges and opportunities ahead.

Overall, the Vertical Mentoring Session proved to be insightful, motivating, and highly beneficial, giving students a clearer perspective on career planning and professional growth in the event management field.
